

Factor each trinomial below. Find both factors in the rectangle below and cross out each box containing a factor. You will cross out **two** boxes for each exercise. When you finish, print the letters from the remaining boxes in the squares at the bottom of the page.

⑥  $15m^2 + 19m + 6$

⑦  $8m^2 - 5m - 3$

⑧  $4m^2 - 17m + 18$

⑨  $14m^2 + 17m - 22$

⑩  $3m^2 - m - 30$

—

**OBJECTIVE 3-o:** To factor trinomials of the form  $ax^2 + bx + c$ , where  $a$  is a positive integer greater than 1.
